

H+ERMES

THE OVERVIEW:

The Auditory Implant Initiative is embarking on a mission to de-centralize patient care by enabling providers to collaborate and extend the reach of Cochlear implants to a larger demographic, while also capturing valuable patient data to further optimize the overall patient care process. A key enabler of this mission is a product that allows providers to network, collaborate, and analyze integrated patient data.

THE MISSION:

Dedicated to improving cochlear care in the community, focusing on research collaboration and research.

VALUE TO PATIENT:

Decentralized allowing local community care.

VALUE TO PROVIDER:

- Holistic data management tracking, reporting and analytics
- Practice transparency into patient status and data allowing increase in efficiency and effectiveness
- Enable practices to participate in research
- Creation of a highly collaborative Cochlear implant network
- Drive standardization increasing the minimal quality of care
- Establishes a virtual Center of Excellence
- Enables centralization and orchestration of the care team
- Comprehensive care dashboard for Care Coordinators and Physicians

USERS:

- Facility Coordinator
- CI Coordinator MA
- Nurse

- Physicians

- Patients
